

Taha Ameen

✉ e-mail: tahaa3@illinois.edu  [Google Scholar](#)  [Website](#)

Research Interests

Applied Probability, Stochastic Networks, High Dimensional Statistics, Matching Markets

Education

University of Illinois Urbana-Champaign
PhD in Electrical and Computer Engineering

Sep 2020 – Present
GPA: 4.0/4.0

American University of Sharjah
BS in Electrical Engineering
BS in Mathematics

Sep 2015 – Dec 2019
GPA: 4.0/4.0
GPA: 4.0/4.0

Awards and Fellowships

Best Paper Awards

- Outstanding Student Poster Award, *Stochastic Networks Conference* 2026
- Jack Keil Wolf ISIT Student Paper Award 2025
- IISA Best Student Paper Award in Applications of Statistics and Data Science, *Finalist* 2025
- INFORMS APS Best Student Paper Prize, *Finalist* 2024

Fellowships

- A.R. “Buck” Knight Fellowship 2025
- MAVIS Future Faculty Fellowship 2024
- Robert T. Chien Memorial Award in Electrical Engineering 2024
- Joan and Lalit Bahl Fellowship 2023, 2022
- James M. Henderson Fellowship 2021
- President’s Cup, *highest GPA in undergraduate class* 2019
- Sheikh Khalifa Scholarship 2019
- Chancellor’s Scholar Award, *100% tuition waiver for undergraduate study* 2015 – 2019

Travel Grants

- INFORMS Applied Probability Society Travel Grant 2025
- IEEE International Symposium of Information Theory Travel Grant 2025
- International Indian Statistics Association Travel Grant 2025

Publications and Preprints

Preprints

6. [T. Ameen](#) and B. Hajek, “Sharp Detection Threshold for Correlation among Multiple Unlabeled Gaussian Networks”, *Submitted*. [\[arXiv\]](#)
5. W. Wang, [T. Ameen](#), Y. Chen, Y. Hong, J. Nichols and M. Zurek, “Optimality of a Threshold Policy for a Queueing System with One Fast Server and Two Identical Slow Servers”, *Submitted*. [\[Link\]](#)
4. [T. Ameen](#), F. Sentenac and S. H. Yu, “Flexibility allocation in random bipartite matching markets: exact matching rates and dominance regimes”, *Submitted*. [\[arXiv\]](#)

3. T. Ameen, F. Sentenac and S. H. Yu, “A Uniformity Principle for Spatial Matching”, *Submitted*. [\[arXiv\]](#)
– Winner of outstanding student poster award at Stochastic Networks Conference, 2026.
2. T. Ameen and B. Hajek, “Detecting Planted Structure in Circular Data”, *Submitted*. [\[arXiv\]](#)
1. T. Ameen, K. Kytölä and S.C. Park, “Slit-strip Ising boundary conformal field theory 2: Scaling limits of fusion coefficients”, *Submitted*. [\[arXiv\]](#)

Journal Publications

6. **[OR’26]** T. Ameen and B. Hajek, “Aligning Multiple Inhomogeneous Random Graphs: Fundamental Limits of Exact Recovery”, *Operations Research*, 2026. [\[arXiv\]](#)
– Finalist for best student paper award in applications of statistics and data science at IISA 2025.
5. **[TAC’23]** T. Ameen, S. Mukhopadhyay and N. Qaddoumi, “Computing robust forward invariant sets of multidimensional nonlinear systems via geometric deformation of polytopes”, *IEEE Transactions on Automatic Control*, 2023. [\[Link\]](#)
4. **[MPAG’22]** T. Ameen, K. Kytölä, S.C. Park and D. Radnell, “Slit-strip Ising boundary conformal field theory 1: Discrete and continuous function spaces”, *Mathematical Physics, Analysis and Geometry*, Springer, 2022. [\[Link\]](#)
3. **[FE’22]** S. Shahriar, J. Ramesh, A. Towheed, T. Ameen, A. Sagahyroon and A. Al-Ali, “NICE: Narrative Integrated Career-Exploration Platform”, *Frontiers in Education*, 2022. [\[Link\]](#)
2. **[Access’20]** T. Ameen, M. Hasan and M. Ismail, “A Novel Medium Access Control Algorithm for Ad Hoc Networks based on Ising Model”, *IEEE Access*, 2020. [\[Link\]](#)
1. **[PhyCom’20]** T. Ameen, Y. Aborahama, M. Hasan and M. Ismail, “A PDE-based approach for the evaluation of probability of starvation in video streaming”, *Physical Communication*, Elsevier, 2020. [\[Link\]](#)

Conference Publications

8. **[ISIT’26]** T. Ameen and B. Hajek, “Detecting Planted Structure in Circular Data”, *IEEE International Symposium on Information Theory (ISIT)*, 2026. [\[arXiv\]](#)
7. **[ISIT’25b]** T. Ameen and B. Hajek, “Detecting correlation between multiple unlabeled Gaussian networks”, *IEEE International Symposium on Information Theory (ISIT)*, 2025. [\[Link\]](#)
6. **[ISIT’25a]** T. Ameen and B. Hajek, “Exact random graph matching with multiple graphs”, *IEEE International Symposium on Information Theory (ISIT)*, 2025. [\[Link\]](#)
– Winner of Jack Keil Wolf ISIT Student Paper Award, 2025.
– Finalist at INFORMS APS Best Student Paper Competition, 2024.
5. **[ICML’24]** T. Ameen and B. Hajek, “Robust graph matching when nodes are corrupt”, *International Conference on Machine Learning*, 2024. [\[Link\]](#)
4. **[WDC’22]** T. Ameen, S. Sankagiri and B. Hajek, “Blockchain security when messages are lost”, *ACM Workshop on Developments on Consensus*, 2022. [\[Link\]](#)
3. **[DCC’21]** UIUC Info Theory Students, S. Basu and L. Varshney, “The twelvefold way of non-sequential lossless compression”, *IEEE Data Compression Conference*, 2021. [\[Link\]](#)
2. **[WTS’20]** T. Ameen, M. Hasan and M. Ismail, “A queue-length based approach to metropolized Hamiltonians for distributed scheduling in wireless networks”, *IEEE Wireless Telecommunications Symposium*, 2020. [\[Link\]](#)
1. **[Allerton’19]** T. Ameen, S. Mukhopadhyay and S. Farhana, “A Novel Expression for Computing Time Response of LTI Systems of Arbitrary Order with Applications to Fractional and Stochastic Control”, *Allerton Conference on Communication, Control and Computing*, 2019. [\[Link\]](#)

Research Experience

PhD Research: University of Illinois Urbana-Champaign*Urbana, IL, USA**Statistical Inference on Random Networks**Aug 2022 – Present*

- Studied fundamental limits of the graph matching problem – impacts of heterogeneity, multiple graphs and robustness considerations.
- Studied security of blockchain proof-of-work protocol under unbounded message delays.

Research Intern: Nokia Bell Labs*Murray Hill, NJ, USA**Efficient Hybrid Beamforming for Multiple Access in mmWave Systems**June 2022 – Aug 2022*

- Designed and implemented a software framework to test and compare multiple access algorithms.
- Developed an algorithm for hybrid beamforming at base stations for 5G and beyond, accounting for throughput, latency and power efficiency.

Research Intern: Department of Mathematics, Aalto University*Espoo, Finland**Scaling Limits of the Ising Model**June 2019 – Aug 2019*

- Studied the scaling limit of the 2D Ising model in a novel geometry and its relation to conformal field theory.

Research Associate: American University of Sharjah*Sharjah, UAE**Microwave Sensing for Crack Detection in Railway Tracks**Dec 2019 – Aug 2020*

- Designed, developed and deployed an autonomous robot that uses microwaves to scan railway tracks for cracks and classifies their severity.
- The project included a sensing module, signal processing module, communications module and a neural network for crack severity estimation.

Selected Talks and Posters

(Upcoming)

- INFORMS Annual Meeting, Session on Auctions and Market Design, 2026.
- Revenue Management and Pricing Workshop, 2026.
- MSOM Conference, 2026.

(Past)

- Stochastic Networks Conference, 2026.
- Marketplace Innovation Workshop (MIW), 2026.
- Rotman Young Scholar Seminar Series, University of Toronto, 2026.
- INFORMS Annual Meeting, Session on Applied Probability in Algorithmic and Operational Networks II, 2025.
- Cornell ORIE Young Researchers Workshop, 2025.
- INFORMS Applied Probability Society Conference, Session on High Dimensional Statistics, 2025.
- IEEE International Symposium on Information Theory, 2025.
- IISA Best Student Paper Award Talk, Statistics and Data Science Category, 2025.
- INFORMS APS Best Student Paper Award Competition, 2024.
- INFORMS Annual Meeting, APS Session on Theoretical Advances in Networks, Dynamics and Inference, 2024.
- IDEAL Workshop at Northwestern University, 2024.
- Stochastic Networks Conference, 2024.
- International Conference on Machine Learning, 2024.
- Coordinated Science Lab Student Conference at UIUC, 2024.
- ACM Workshop on Developments in Consensus, 2022.
- IEEE Wireless Telecommunications Symposium, 2020.
- Allerton Conference, 2019.

Coursework, Teaching, Service

PhD Coursework at UIUC.

- Electrical Engineering: Random Processes, Information Theory, Machine Learning, Optimization, Statistical Learning Theory, Control Systems, Communication Network Analysis, MDPs and Reinforcement Learning, Quantum Information Theory.
- Mathematics: Real Analysis, Probability Theory I, Probability Theory II, Combinatorial Optimization, High Dimensional Statistics, Stochastic Processes on Graphs.

Teaching and Mentorship.

- Teaching Assistant: ECE 534 (Random Processes): *Spring '24, Fall '24*. ECE 543 (Statistical Learning Theory): *Spring '25*.
- Undergraduate Mentor: Academic Support Center, 2016-19.

Reviewing.

- Journals: Annals of Applied Probability, IEEE Transactions on Systems, Man and Cybernetics: Systems, Wiley International Journal of Robust and Nonlinear Control, IEEE Sensors.
- Conferences: ISIT, CDC, ACM Sigmetrics, ITW, NeurIPS.
